Sunday 22nd of October 2017, at 5pm

## Flesh/Density

with Michel Raji, dancer & 'choreosopher' (dance-impact), and Pierre Blanchut, percussion

*"The journey of my life is a multifaceted exploration of the impact of dance, of me dancing as a being". An artistic research project into being, where the Act of dancing, as it becomes an act of knowledge, goes beyond a simple transposition into choreography: here, however subtly, every gesture of the choreography of body and soul becomes a rite." (Michel Raji)*

A ritual impact invades the stage. Sweetness and convulsions of the skin. The soul embodies, flesh thins. From vibrations to stomping, the journey of a dance produces its secular dusting. Turning. The reunion of all circles: infinity.
