Landscapes of the Soul

Seven young dancers meet with the courage to revive dancing ideas to release their expectations and hopes.

They have a desire: to regain possession of their own dance, perhaps a different one, in order to unleash a taste for living in harmony and imagination.

They do this in small dance steps, in search of new spaces outside of time.

Research collaboration with residence at the Teatro San Materno

Thanks to the support of the Municipality of Ascona, Fondazione Pende, Repubblica and Canton Ticino/Swisslos
