In collaboration with

Michela Zucconi-Poncini, curator at the Museum of Modern Art of the City of Ascona, presents a conference dedicated to the exceptional career of dancer Charlotte Bara. A choreographer, dancer and writer driven by passion, Charlotte Bara is one those artists who, despite still remaining little-known to researchers and scholars of modern dance, contributed significantly to its growth and development in the 20th century.

This conference accompanies the recent publication of the book "Charlotte Bara (1901-1986)", the latest issue in the "Artisti del Museo" series from the Municipal Museum of Modern Art of Ascona.

Please note that a limited number of spectators may attend each event and that measures are taken by the authorities to counter the spread of COVID-19.
